

MODEKA
WE RIDE

2026

Since 1946

Dear Motorcycle Enthusiasts and Valued Cooperation Partners,

In 2026, we proudly look back on 80 years of Modeka – eight decades defined by passionate dedication, tireless innovation, and the constant pursuit of the highest quality in motorcycle apparel.

This special anniversary is not just a reason for celebration, but above all, a deeply felt moment of gratitude. Our sincere thanks go to every single individual who has accompanied us on this incredible journey. To our dedicated team, some of whom have been by our side for 20, 30, or even 40 years – your loyalty and commitment are the foundation upon which Modeka has grown into what it is today. Only together could we embark on this path.

And to you, our loyal customers: You are the very heart of our brand. You travel the world with our products, discover new paths, conquer adventures, and share your experiences with us. Your stories inspire and motivate us a new each day to develop motorcycle clothing that reliably supports you in every situation. Thanks to social media, we can now participate in your tours and journeys more than ever – and we deeply appreciate that. The images, impressions, and feedback we receive daily are both an inspiration and a form of appreciation for us.

We look forward to many more years together – with you, our partners, our team, and all those who live and love the fascination of motorcycling.

Thank you for 80 years of trust.

Your Modeka family

MODEKA RIDERS - Your journey is our passion. With every adventure you conquer, you inspire us to push boundaries. Thank you for making Modeka part of your ride.

On the move since 1946. Driven by passion for people on two wheels.

2025

Gravel adventure
Himalaya

It all began in 1946 – with a small tannery and the courage to turn rabbit fur and paper threads into functional clothing. For people who had to keep going in life.

A lot has happened since then. We look back on eight decades full of milestones, ideas, new beginnings and encounters. And on a story that has shaped who we are today: a brand for everyone out there on the road.

80 years

Modeka stands for motorcycle gear with heart, craftsmanship and character – and for a story that began eight decades ago. Founded in 1946 as a small family business in Westphalia, we've since witnessed countless stories: from road trips across Europe to gravel adventures in the Himalayas.

What has remained? Our passion for everything that happens out there. Our responsibility to be by your side when it counts. And our commitment to creating motorcycle gear that not only protects – but inspires.

1946

2026

What defines us

Our brand philosophy

Making safety affordable

Our philosophy is to offer high-quality products at a fair price. We understand the needs of motorcyclists and develop gear that combines safety and functionality with affordability. Each item is designed with care and attention to detail – to ensure you get the best value for your ride.

We develop with a rider-first mindset

We listen, we adapt, we improve – always with the rider in mind. Our development process is shaped by feedback from the road. From fit to function, we refine our products together with those who live and ride with them.

80 years of know-how

With 80 years of experience in the motorcycle industry, we combine deep expertise with an intuitive sense of what really matters on the road. Our history is long – but our thinking is always moving forward.

A dedicated focus on women's riding gear

We create dedicated motorcycle gear for women – not just downsized men's jackets or generic fits. Our designs, details and cuts are developed by a design team made up of women, in close exchange with female riders. Because we believe: If you know how something should feel, you'll design it better.

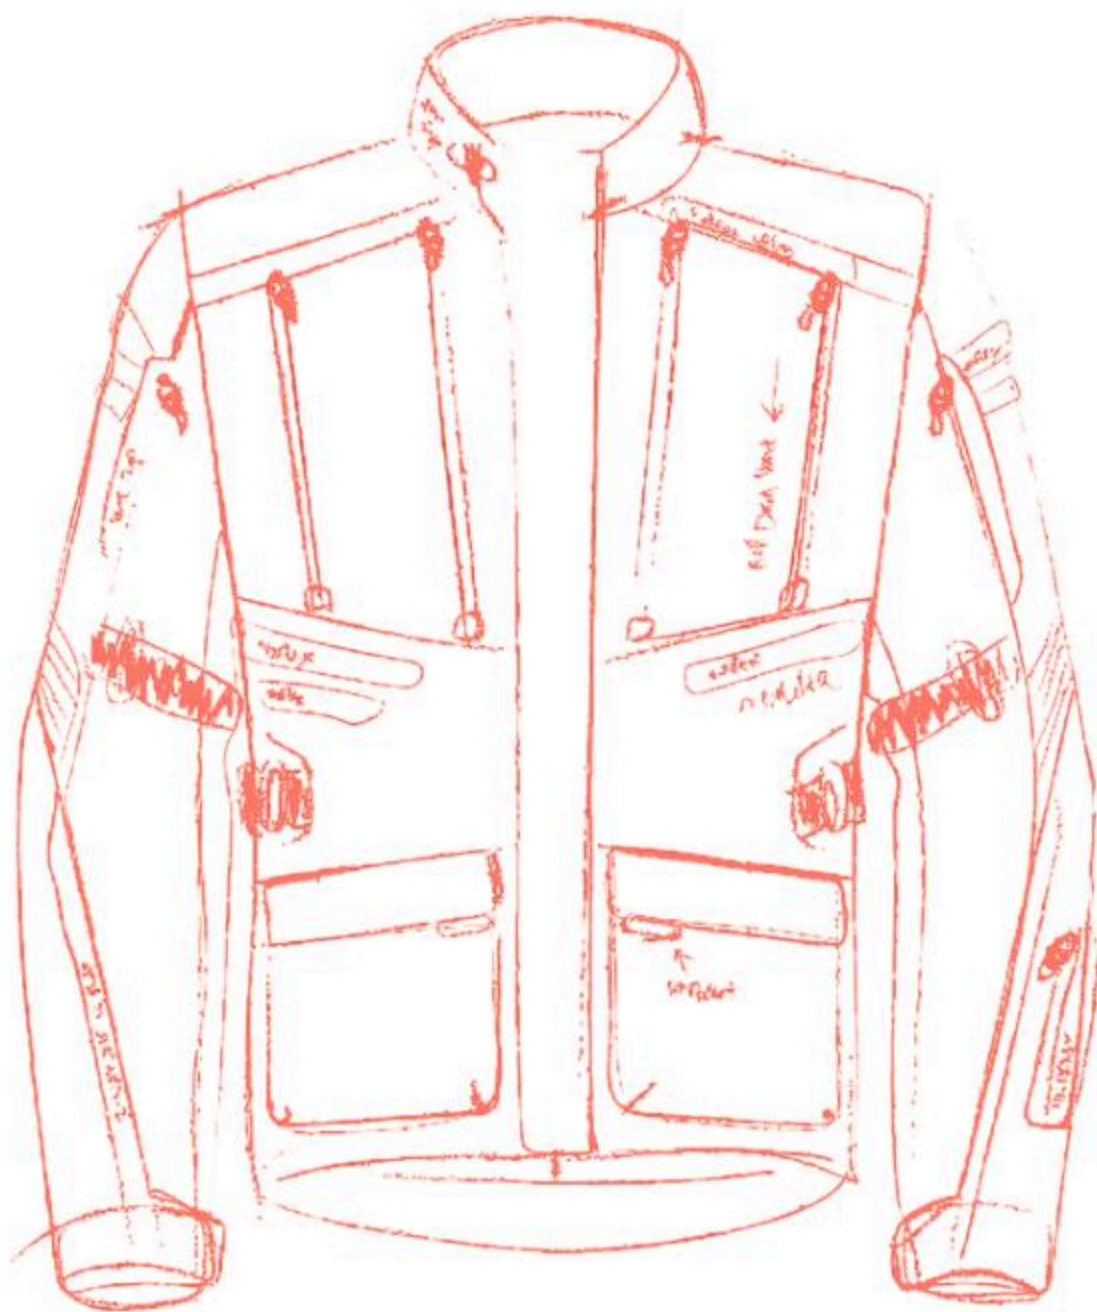

Comfort and fit for everyone

Bodies are different – just like bikes, destinations and riding styles. That's why we put great effort into offering an exemplary size range and a fit that works for real people, not just standard models.

Moodboards are helpful for visually presenting the concept of a product idea. First, we define the product's scope and thus the target audience.

Design & Development

An intensive work process

Function and aesthetics combined: Our development path for motorcycle clothing

Our product development for motorbike clothing follows a structured and careful process. This begins with a thorough market and needs analysis to understand the requirements and wishes of motorcyclists. Our designers then work on the first drafts, taking into account both functionality and aesthetics. These designs are further developed in close co-operation with garment technicians on site and in the production facilities to ensure that the garments meet the highest quality and safety standards. Prototypes are extensively tested and optimised accordingly before the final products go into production.

CE

The certification of our collection is an integral part of our development process. Each product is tested by a european certification institute for many technical safety aspects before production begins. You can find the so-called declaration of conformity for each product on our website.

Your Path into the Unknown

Adventure is the search for new paths, immersing oneself in nature, and overcoming challenges. With every kilometer you travel, you feel the adrenaline and freedom. It's about discovering the world off the beaten path, whether through deserts, forests, or mountains. Every route is a new challenge, every landscape a new experience. Adventure is the perfect combination of thrill and nature. Experience the untamed beauty of the world and the joy of finding your own way.

Adventure

Modeka x Gravel Adventure

Tested in the Himalayan Mountains

When roads shrink to lines on a map, when the unknown awaits behind every curve – that's when the real adventure begins. For the @gravel.adv riders, this meant a journey of several thousand kilometers through the untamed Himalayan mountains. No comfort zone. No return ticket. Even the approach wasn't a walk in the park. Gravel instead of roads, rivers without bridges, trails washed away by rain. And above it all: the altitude. The air gets thinner, the body heavier, concentration wanes. That's when you discover what you can really rely on.

Scan the QR code to watch the documentary
Above the Clouds III

„There are roads that lead to destinations. And there are roads that lead to something deeper.“

Our Adventure collection was with us every step of the way – in daytime temperatures up to 30 degrees and frosty nights just below zero. In the dust of the plains, in the mud of the mountain slopes, in the icy headwind on the mountain passes. Everything was put to the test: protectors, ventilation, zippers, waterproof pockets. With every movement, every fall, every type of weather.

And this is not a marketing promise. This is a real-world stress test. With real people, real emotions – and real limits. What doesn't work in this environment has no chance outdoors. The feedback was clear: The clothing protects. It stays dry. It remains comfortable even after ten hours in the saddle. It moves with every motion, stays stable, offers support. And it remains reliable – when energy fades but the journey continues.

This is exactly why we build our gear.

Gravel Riders and Their Gear

Steffen Gras

Panamericana II

The Proven Travel Companion

The Panamericana II suit was Steffen's reliable companion on the Himalaya tour. Its strength lies in the perfect balance of protection and first-class comfort, making it the ideal partner for long and unpredictable journeys. Especially in the Himalaya, where conditions constantly change, its well-thought-out features really stood out. From generous ventilation to adaptability to temperature shifts, this suit ensured you could fully concentrate on riding. A true classic for anyone who values a relaxed and secure trip.

Joscha Kiefer

Hydron

The Lightweight Companion for Demanding Tours

Joscha chose the Hydron suit as his lightweight, high-end touring combo—a truly smart choice for the Himalaya! This suit impresses not only with its modern material blend of Tactel and stretch, ensuring comfort and robustness, but primarily with its innovative In&Out membrane. This ingenious flexibility, allowing the rain layer to be worn inside, outside, or separately, along with the large ventilation areas, made the Hydron the perfect partner for effortlessly adapting to the extremely changing conditions in the Himalaya. A suit that thinks with you and protects!

Niels Peter Jensen

Talisman

Unstoppable in the Himalaya

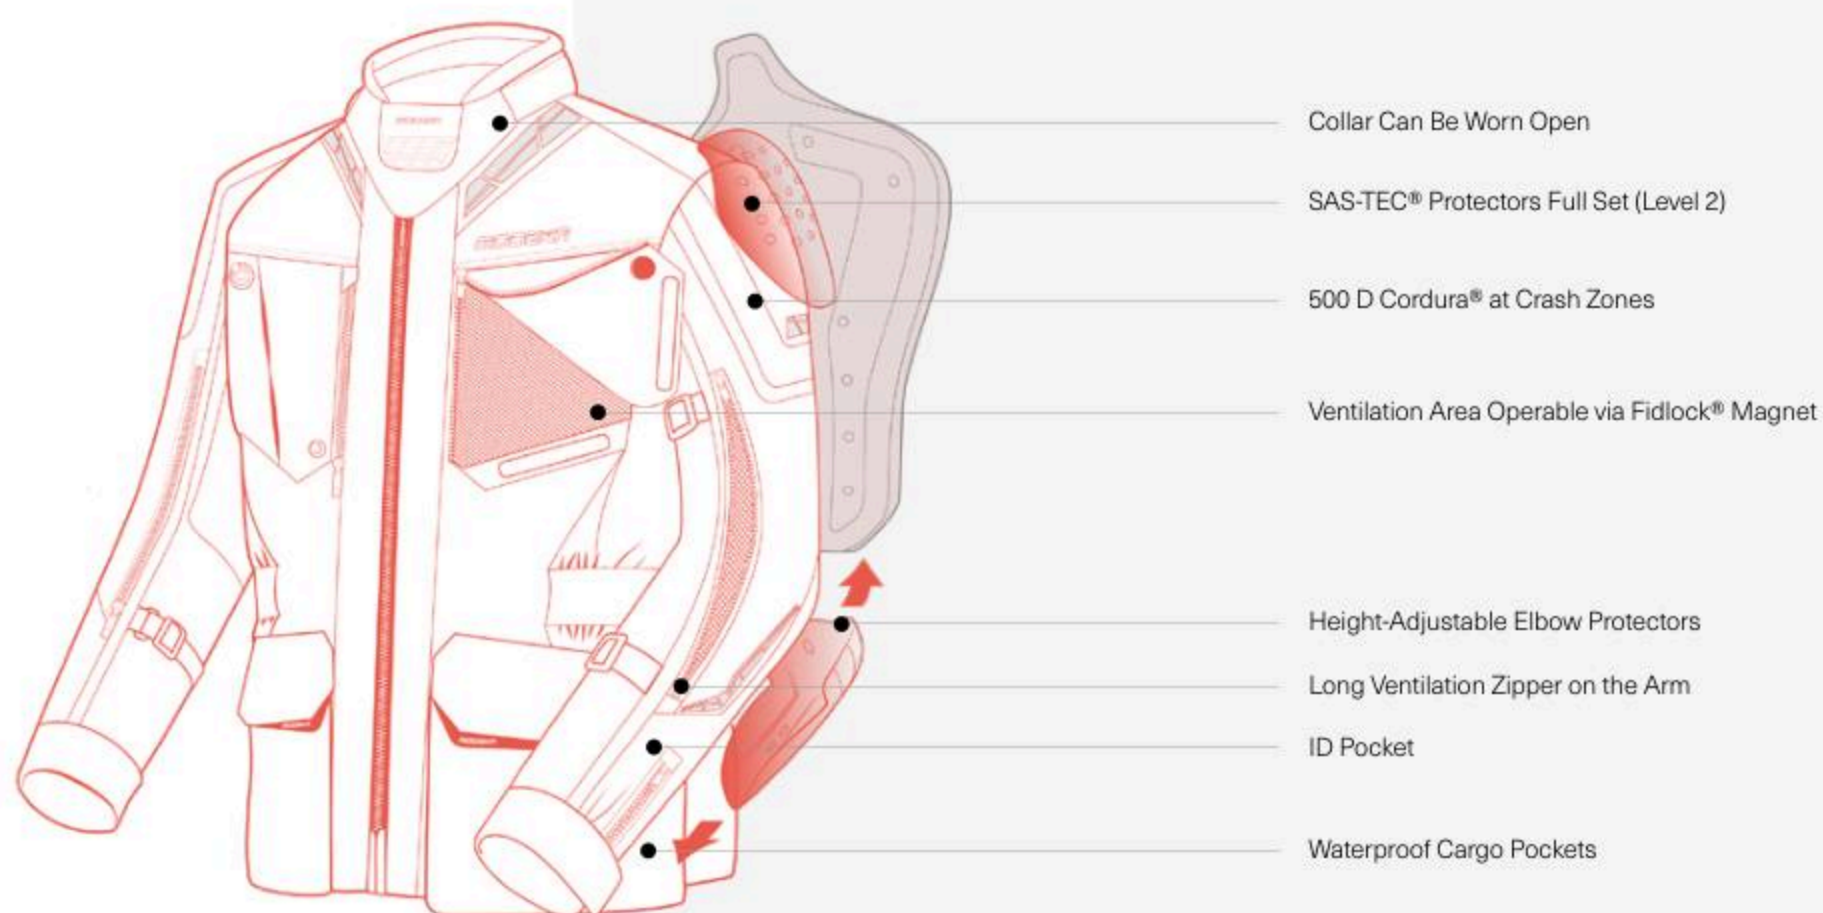

Niels opted for the Talisman suit for his Himalaya tour—and it was the perfect choice! This suit truly shines with its incredible robustness, which comes directly from the clever weaving of Aramid and stretch into the main material. For you, that means not only outstanding protection on the toughest stretches but also full freedom of movement in the saddle. As a logical evolution of our Panamericana II, the Talisman impressively proved it delivers on its promises—no matter what surprises the Himalaya throws at you. A true workhorse for demanding adventures!

DNA: Adventure

Field of Application	Different Types of Roads and Terrain
Designed for	Long Adventure Trips, Versatile Climate Zones

Example Panamericana II

Protection That Inspires Confidence

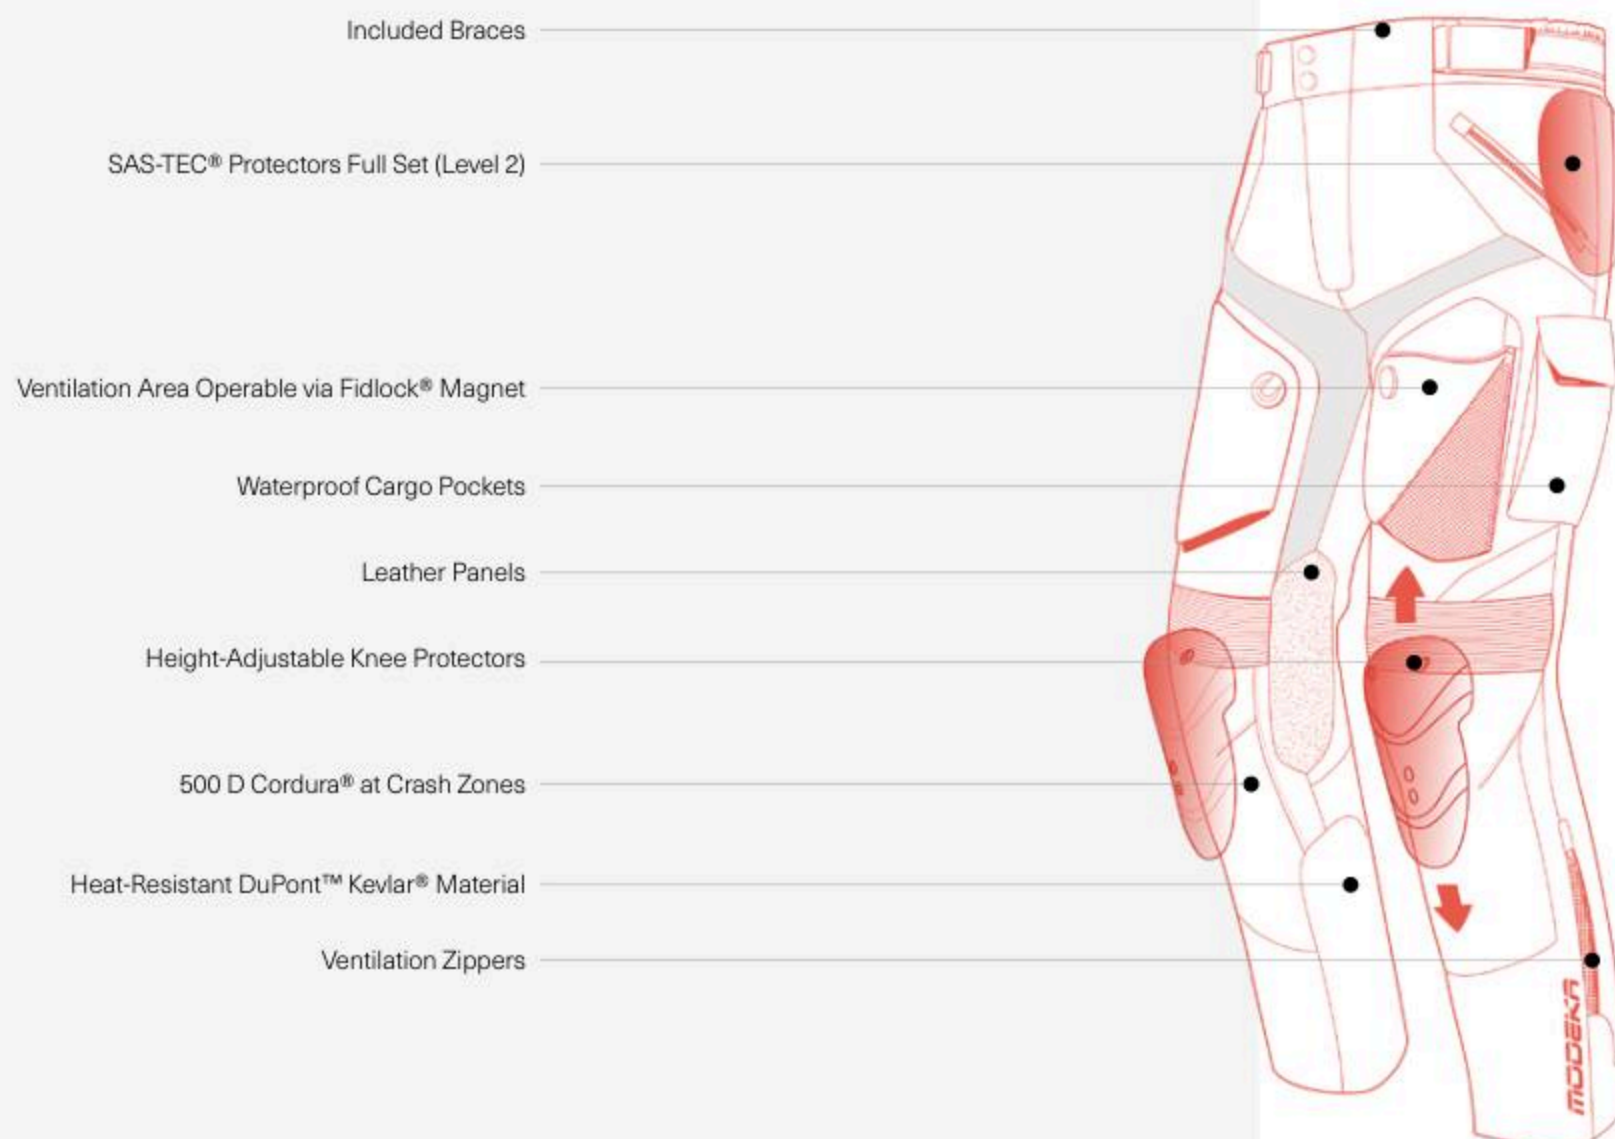

Our Adventure collection has been designed to withstand the daily demands of expedition travel. For comprehensive protection, we collaborate with renowned partners such as SAS-TEC® for protectors, YKK zippers, Sympatex® membranes, as well as Cordura® and DuPont™ Kevlar® inserts in heavily stressed areas. All products are certified as Personal Protective Equipment (PPE) by independent institutes.

Comfort on Long Journeys

Comfort is a must on long rides. That's why our Adventure products feature an advanced ventilation system that allows you to control airflow, avoiding overheating on demanding journeys. Each suit in our Adventure line is unique and distinguished by individual ventilation concepts.

Adaptability for Any Challenge

Our Adventure Collection has been developed for various climate zones. The focus of the Adventure line is on the innovative 3-in-1 concept, which offers you the necessary flexibility, whether on hot summer days or in rain and cold. In addition, we offer waterproof laminate suits that provide reliable protection against rain and wind. Each Adventure jacket includes, regardless of the layering system, a quilted midlayer jacket that provides insulation and can also be worn separately.

1000 PS (23.01.2023)

„For a 3in1 textile suit, however, Modeka's Panamericana 2 performs almost perfectly and is suitable, practical and comfortable clothing for all motorcycle tourers out there. The features are practical, the workmanship is good, the rides with the suit are pleasant and the range of use is wide. It is also positive to note that the Panamericana 2 combo is also available in women's cut and offers the same features than the men's model. This is unfortunately not self-evident with regard to other brands and models.“

TOURENFAHRER EMPFEHLUNG (7/2022)

„The combination of extremely supple Tactel with sufficiently dimensioned, abrasion-resistant Cordura zones makes the Panamericana a real feel-good suit. Thanks to the magnetic solution for the ventilation flaps, the changeover to changing climate zones works quickly and effectively. [...] Overall, the air exchange in convertible mode works very well.“

MOTORRAD ABENTEUER (6/2023)

„A functional travel suit, available in many sizes, scores points with high wearing comfort and good ventilation.“

When Things Get Rough, It's What You Wear That Counts

ATLAZ

Whether dusty off-road tracks or long road stages – the Atlaz suit can handle it all. Designed for true adventurers, it combines CE AAA-certified protection with a pleasantly flexible feel. The technical ripstop material is durable yet supple. The fit is designed for movement – ideal for a standing position and compatible with ADV accessories. The In&Out membrane protects in any weather, however you need it: underneath, over, or separately. The name says it all: Atlaz stands for vastness, freedom, and discovery. For those who are on the move – without compromise.

When Less Is More. The Suit for Smart Explorers

PANEO LT

This smart 3-layer laminate suit offers everything you need for your next great adventure. Thanks to its lightweight construction, you will experience maximum comfort as you ride through breathtaking landscapes and enjoy the freedom of motorcycling. The Paneo LT impresses with its innovative laminate technology, where the waterproof membrane is directly bonded to the outer material. This keeps the suit exceptionally lightweight while providing outstanding protection against rain and wind. Not a drop penetrates between the layers, ensuring quick drying and lasting weather resistance. The excellent ventilation of the Paneo LT ensures that you stay comfortably cool even in intense heat, allowing you to fully immerse yourself in your adventure. Whether in bright sunshine or unexpected rain – the Paneo LT reliably protects you and gives you the freedom to embrace every challenge. Experience unforgettable moments with the Paneo LT.

The Feeling of Endless Freedom

Imagine embarking on a new destination, the hum of your engine beneath you, the road stretching ahead. Touring is more than just riding – it's the sensation of freedom that envelops you as you explore the world on two wheels. It's the anticipation of the unknown and the spirit of adventure that propels you forward. Whether through picturesque villages, along breathtaking coastal roads, or across challenging mountain passes, the touring experience connects you with your motorcycle and the open road. Touring means exploring the world at your own pace, discovering new horizons, and collecting unforgettable memories. It's the joy of the journey itself, the adventure that makes every mile special. Let the road lead you and experience the unparalleled feeling of touring.

As Versatile as You

The demands of touring riders vary, so our Touring Collection offers a comprehensive selection of different equipment options, from entry-level to long-distance riders, as well as from 3-in-1 all-season products to pure summer pieces.

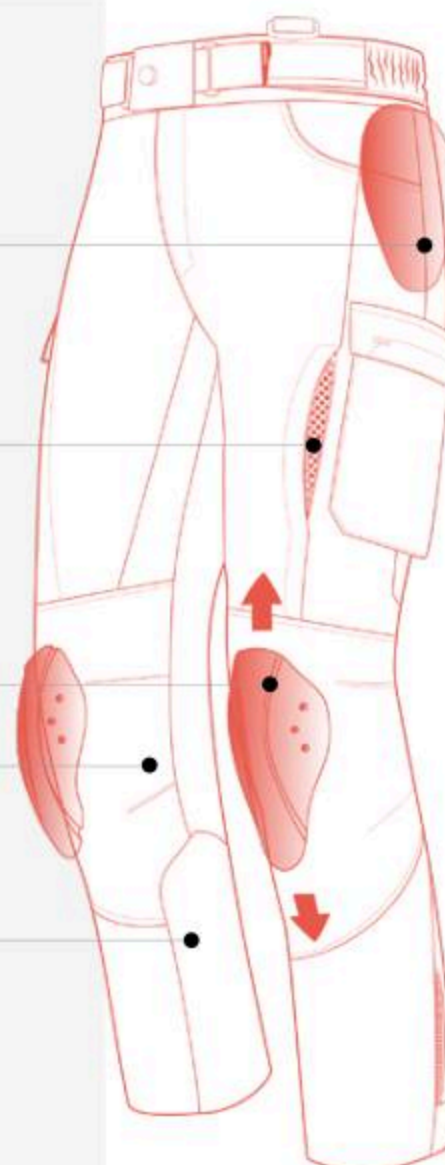

Close-Fitting Fit

At Modeka, we place great emphasis on a comfortable fit specifically designed for long-distance rides. Stretch areas and articulated joints ensure comfort even after hours of motorcycle riding. Our jackets with a shortened front length are highly popular because they don't ride up while sitting and fit optimally in the riding position.

Weather Solutions for Your Needs

To meet individual needs, we rely on various equipment concepts. Therefore, our Touring Range includes 3-in-1 products for year-round use as well as lighter 2-in-1 items. In both concepts, waterproof climate membranes are integrated or removable. The removable membrane makes the product extremely versatile and prepared for all weather conditions. For particularly hot days, we recommend our mesh suits, which are excellent for the most popular riding season.

Revolutionary Multifunctionality

HYDRON

Based on the idea of multifunctionality, this high-quality touring companion convinces demanding riders in three of four seasons with its modern Hydroflex membrane. Wear the rain layer flexibly under or over the suit and redefine your adventure on two wheels. Experience unparalleled comfort and exceptional performance, supported by extensive ventilation that keeps you cool and comfortable even on long rides. The ergonomically thought-out material combinations ensure optimal freedom of movement, allowing you to master any challenge.

The DuPont Oval and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

Conquer Every Climate: The Lucano 3-in-1 Touring Suit

LUCANO

The Lucano 3-in-1 Touring Suit is designed for year-round use, offering optimal protection and comfort for your rides. Regardless of the climatic conditions – whether warm summer weather or harsh winter cold – Lucano adapts perfectly to your needs. The suit stands out with its modern ripstop material, which is both robust and durable, providing excellent tactile quality. This design makes Lucano the ideal companion for adventurous tour riders who travel both on paved roads and off the beaten path. With the Lucano Touring Suit, you can conquer any climate and enjoy unforgettable rides.

**Even More Comfortable,
Even Lighter
Ready for Any Journey**

AERIS II

The Aeris II is more than just an update – it's your perfect touring companion in a new form. With noticeably lighter, more comfortable materials, it offers unparalleled comfort, even on long rides. The improved ventilation, featuring intuitive Fidlock® magnets, ensures optimal airflow – perfect for warm weather or demanding days in the saddle. As a 3-in-1 touring suit, it provides full flexibility in any weather. Technically refined, newly designed, and reduced to the essentials:

The Aeris II is made for riders with big plans.

So Light, You'll Forget You're Wearing a Suit

MUVA

The Muva suit is made for a new generation of motorcyclists – for everyone who wants to keep moving. Its minimalist design meets full freedom of movement and a noticeably comfortable feel. The fully elastic textile suit fits like a second skin and moves with you – in the city as well as on tour. The In&Out membrane adapts to the weather without restricting you. The Muva suit is so lightweight that you barely notice it – until you need it.

The Perfect Companion for Adventures from Spring to Autumn

KHAO AIR II

This 2-in-1 suit is the ideal choice for anyone who values the highest comfort on every ride from spring to autumn. The short jacket of this touring suit provides additional comfort and freedom of movement, making it particularly suitable for long and varied tours. Made from soft polyamide and equipped with generous mesh inserts, the Khao Air II offers excellent air circulation that keeps you pleasantly cool even on hot days. A special feature of the Khao Air II is its color design in a sandy hue, giving it a distinctive adventure look and making it a real eye-catcher. With the Khao Air II suit, you are perfectly equipped to master any challenge in temperatures above 15°C.

Summer, Here We Come

KHAO AIR II LADY

With the Khao Air II Lady, Modeka continues the success story of the popular Khao Air – and takes it to the next level. This 2-in-1 suit is specifically designed for female riders who want to enjoy maximum comfort from spring through autumn. Made from soft polyamide and featuring generous mesh panels, it ensures excellent airflow – even on hot days. New to this version are the extended mesh zones between the sleeves and torso, which provide even better ventilation. Visually, the Khao Air II Lady impresses with an entirely new color scheme: the sand-colored version gives it a distinctive adventure look, while the classic colors are perfectly suited for touring and city rides.

The Pursuit of Speed

The heart beats faster, the pulse rises – that's the thrill of sports on two wheels. It's more than just speed; it's the pure passion and excitement that drive you. Every curve, every straightaway is a new adrenaline experience. Sport means pushing the limits and maximizing the performance of your motorcycle. It's the feeling of control and speed that keeps drawing you back to the road. You and your machine, one with the road, in perfect harmony.

Sport

DNA: Sport

Field of Application	Dynamic Roads, Race Track
Designed for	High Speeds, Extreme Driving Conditions

Maximum Safety at High Speeds

Our sportswear demonstrates a maximum commitment to your safety. Our leather suits meet the strictest safety standards and are certified with the highest protection level CE AAA. They excel in exceptional abrasion resistance and excellent impact protection. In addition to Level 2 joint protectors from the German brand SAS-TEC®, shoulder and elbow caps provide the sporty edge.

Praised by the Specialist Press

The leather suits Yron and Valyant have been rated as GOOD in various motorcycle magazines. The testers praised the perfect cut of both suits. In one magazine, it was even mentioned that it „almost feels like a well-fitting tracksuit“ (Motorrad 12/2024).

Aerodynamic Comfort

At high driving speeds, the aerodynamic design of clothing is crucial. Our specially designed sport jackets and trousers are tailored to snugly fit the body, eliminating fluttering at high speeds. With ergonomically optimized designs, pre-shaped sleeves and knee areas, as well as sufficient stretch zones, we offer maximum comfort in the riding position.

Dynamic Through City Traffic

The city pulses, life is dynamic – and you’re right in the midst of it. Urban Sport is the perfect blend of style and functionality for urban living. It’s about moving quickly and safely through city traffic without sacrificing style. Commute to work, to university, or meet up with friends – Urban Sport turns every ride into an experience. It’s the freedom to be mobile while always looking good.

Urban Sport

DNA: Urban Sport

Field of Application	Urban Spaces
Designed for	Dynamic Rides in Urban Traffic., Daily Use

Sporty Everyday Looks

Our Urban Sportswear stands out with a casual-sporty everyday design reminiscent of streetwear. We place special emphasis on the use of softshell material, which enhances the urban look with its outdoor character. Each piece of our Urban Sport collection comes with a hood to add an additional sporty-casual touch to the jackets.

Inconspicuous Protection

Our main focus with the Urban Sport collection is to design motorcycle clothing that reflects the look and comfort of casual sportswear in everyday life, without compromising on the protective elements of a motorcycle jacket. Therefore, the „protection“ is hardly visible, making the jackets an attractive option even off the motorcycle.

Tradition Meets Passion

Here we celebrate the timeless beauty and craftsmanship that endures through generations. For all those who feel the stories of days gone by and want to experience the freedom of the road in its purest form. In every detail of our collection lies the soul of motorcycling, a passion that never fades and always lives on. Let yourself be inspired by tradition and join us in writing the next chapters of this everlasting story.

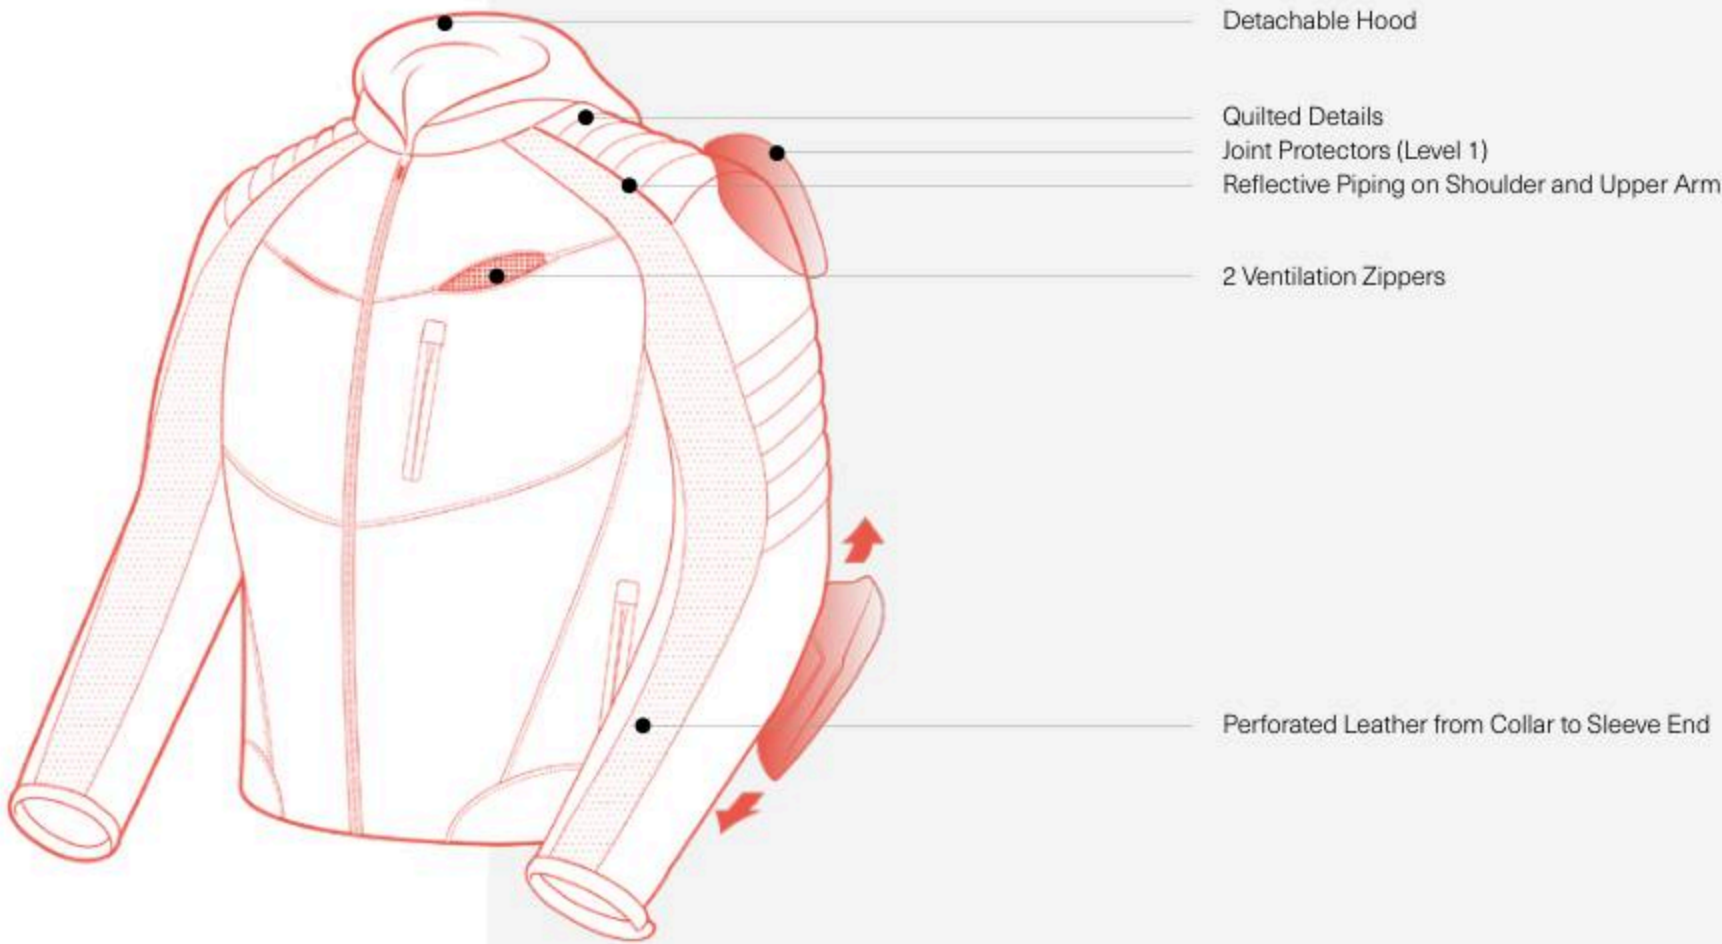

Heritage

DNA: Heritage

Field of Application	Classic City Rides, Everyday Life
Designed for	Stylish Rides, Short Trips, Everyday Routes

Example Bad Eddie

Relaxed, Authentic Styles

The Heritage clothing by Modeka brings the casual biker look to the streets. It combines timeless design with modern safety standards, offering the perfect mix of style and functionality. With details like quilted shoulder panels, vintage metal zippers, and high-quality snap fasteners, our collection captures the spirit of traditional motorcycle culture. Our focus on timeless design ensures that you'll wear this clothing for a long time and with pleasure.

Characterful: Leather

Leather that develops a natural patina over time gives the jacket a distinctive uniqueness. Our selection includes sturdy leather in matte or glossy finishes as well as models with a vintage look. The strength and durability of the leather provide optimal protection and comfort. Ventilation concepts such as perforated leather and concealed ventilation zippers ensure pleasant air circulation.

Functional Classics

Classic design meets powerful functionality: Our Heritage textile jackets provide you with optimal weather protection and timeless style. Authentic wax jackets and shorter blouson jackets feature removable membranes and excellent ventilation options via zipper. Our Heritage line also includes casual motorcycle shirts with abrasion-resistant aramid inlays that can be seamlessly integrated into everyday life.

Casual Looks with Hidden Armor

Motorcycle Shirts

Motorcycle shirts combine casual, everyday design with functional safety features to offer an optimal balance of comfort and protection for urban motorcyclists. Made from smooth materials, they include protectors and aramid inserts for high abrasion resistance, without compromising the relaxed look of a classic shirt. These shirts are ideal for bikers who want to look good off the bike as well. They effortlessly integrate into daily life, providing the necessary safety on two wheels without compromising on style and comfort. With a motorcycle shirt, you are well-equipped for your next ride through the city or a relaxed trip to the countryside.

Ease and Freedom United

Jeans are an integral part of our everyday lives, and with Modeka, they bring a new dimension to motorcycling. It's the perfect combination of casual style and functional safety. Every ride becomes an expression of your personality and freedom. Jeans mean you don't have to choose between style and safety. It's the freedom to look and feel as usual every day while being optimally protected. Every ride, whether through the city or on open roads, becomes an experience. Experience the perfect blend of comfort and protection with Modeka Jeans - for every day and every ride.

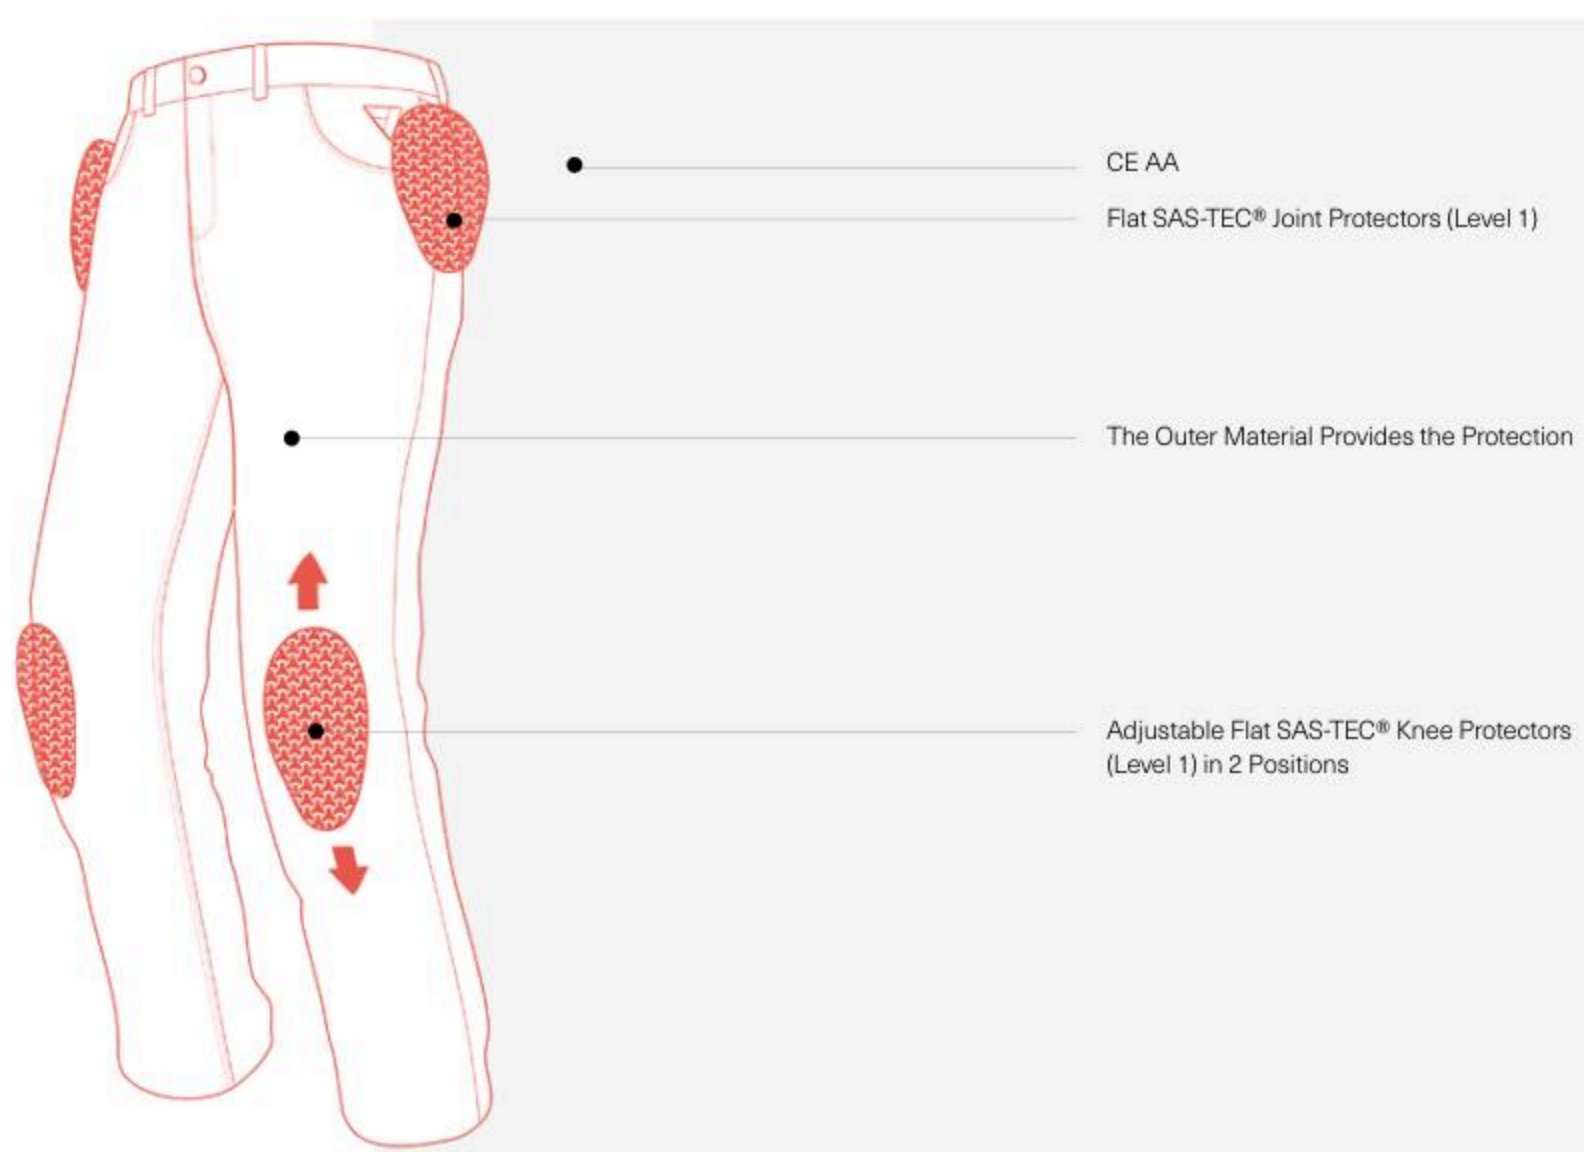

Jeans

DNA: Jeans

Field of Application	Classic City Rides, Everyday Life
Designed for	Casual Look, Daily Use

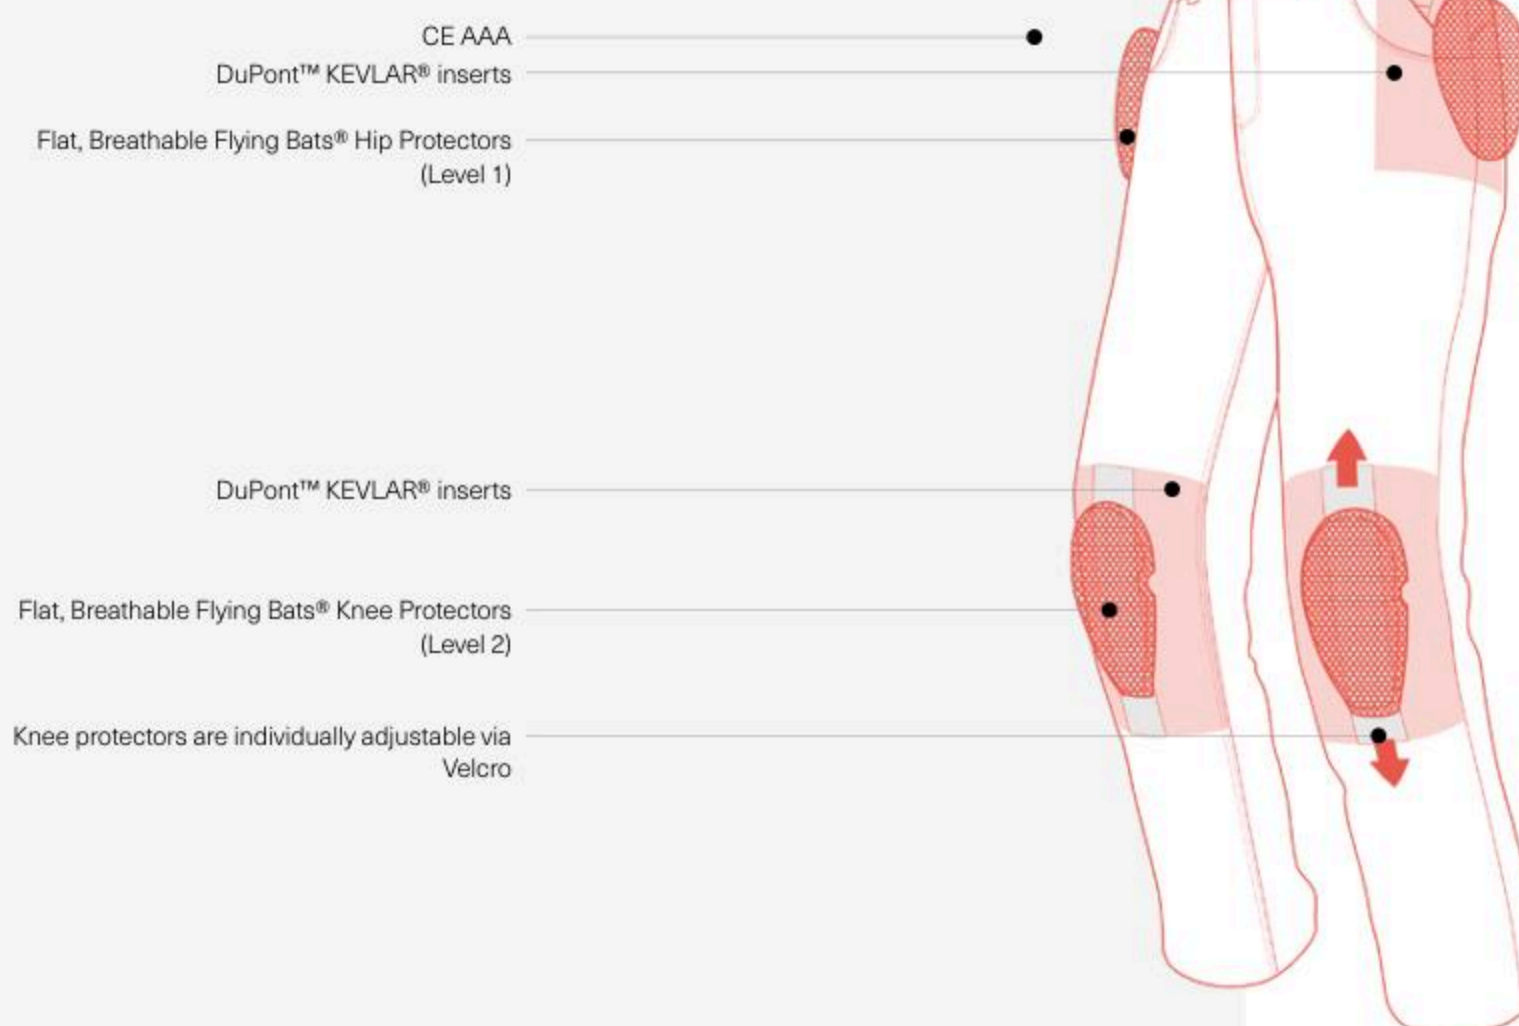

Example Finn Mono, Monolayer

Inconspicuous Protection

Our motorcycle jeans combine the comfort of everyday clothing with the safety of motorcycle gear. They meet CE standards for personal protective equipment and boast a casual design. The use of high-quality materials such as cotton, Cordura®, and DuPont™ KEVLAR® ensures comfort as well as durability and protection. Our pants are equipped with flexible, flat protectors rated at levels 1 and 2 for knees and hips, providing invisible protection, following our Fit and Forget™ principle.

The First Step into Sustainability

Our goal is to achieve a responsible and sustainable production of jeans. Currently, renewable energy sources already cover 60% of the energy demand in our jeans production. During the manufacturing process, approximately 130 liters of water are required for washing processes. Our aim is to significantly reduce this consumption in the future. We are aware that this is only a first step towards a more sustainable production. Our ambition is to embed the ecological aspect in our production processes in the long term.

Glove Up and Ride

Riding a motorcycle is more than just a hobby - it's a passion that makes you feel free and alive. Your hands play a crucial role in this, as they connect you directly to your motorcycle. Our motorcycle gloves not only provide you with the necessary protection, but also the feeling of control and security you need on every ride. Feel the perfect combination of comfort and protection that allows you to enjoy every adventure safely.

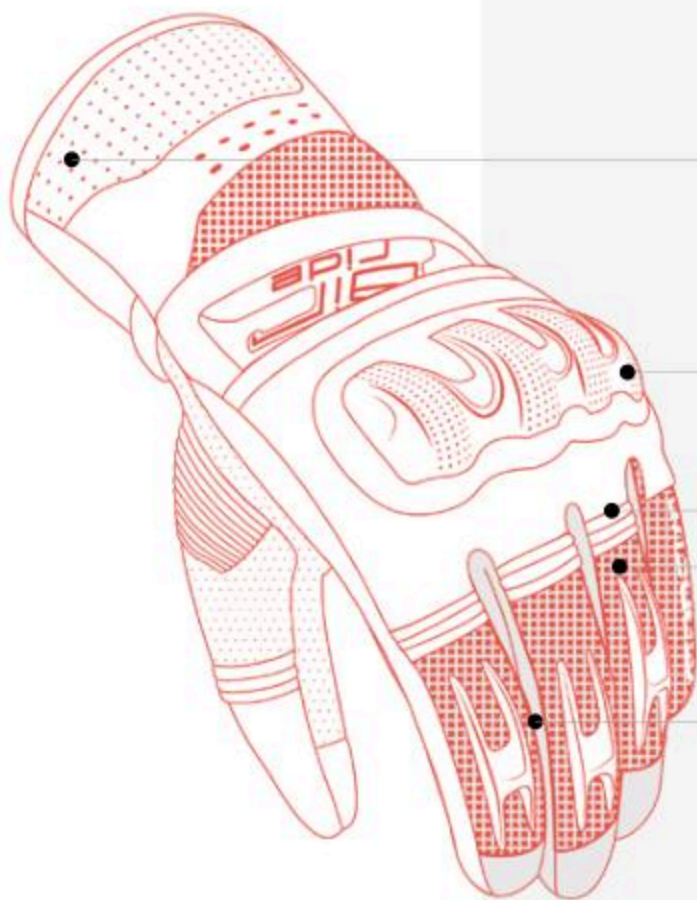

Gloves

DNA: Gloves

- Perforated Leather
- Knuckle Padded with Temperfoam®
- Leather Stretch
- Mesh Inserts on Fingers
- Textile Stretch Between the Fingers

Example Air Ride II

Perfect Grip and Control

Our motorcycle gloves are designed to provide you with the necessary grip and secure control over your motorcycle. High-quality materials and carefully thought-out designs ensure that your hands do not tire even during longer rides. The non-slip inner surfaces and ergonomic cuts guarantee that you can steer safely and precisely at all times.

Protection at the Highest Level

Safety is our top priority. Our certified gloves are equipped with shock-absorbing knuckle protectors to optimally protect your hands in the event of a fall. Reinforced palms and abrasion-resistant materials provide additional protection while ensuring high freedom of movement.

Comfort for Every Season

Whether it's hot summer days or cold winter rides, we have the perfect glove for every weather condition. Breathable fabrics and ventilated designs provide pleasant cooling in summer, while insulated and waterproof models keep your hands warm and dry in winter. Enjoy the comfort tailored specifically to the needs of motorcyclists, and experience every ride to the fullest.

Kickstart Your Journey

Your feet carry you through every adventure, they are your foundation on every ride. With our motorcycle boots and shoes, you experience the feeling of unwavering security and maximum comfort. Whether you're cruising through the city or embarking on a long tour – our shoes provide you with the protection and stability you need to tackle every route with confidence.

Boots

DNA: Boots

ATOP® Quick-Release Buckle
Ankle Reinforcement

Reflection
Gear Shift Reinforcement
Slider Protection

Example YKO

Protection and Stability

Our motorcycle shoes are equipped with reinforced toe and heel caps as well as ankle protectors to provide optimal protection for your feet in the event of a crash. Robust, abrasion-resistant materials and non-slip soles ensure additional safety and stability, no matter how demanding the terrain.

Comfort Concept

Nothing is worse than uncomfortable shoes on long rides. Ergonomic fits and breathable materials ensure that your feet stay fresh and comfortable even after long rides.

Weather Resistance

Are you riding in the rain or battling the heat? Motorcycle boots need to withstand all weather conditions. Our waterproof boots keep your feet dry, so you're always well-prepared, no matter what the weather brings. Our shoe collection also includes perforated or mesh-panel shoes to be well-equipped for the summer.
